- ? **AUTOMIX CDs:**
 - o automix Audio CDs on PCs thanks to the digital Audio CD playback mode;
- ? **TrayIcon, Status Bar and many improvements** to enhance the overall user-friendliness of the jukebox.

Virtuosa is the ultimate all-in-one music and movie software jukebox. It seamlessly handles both the most popular audio and video formats, including .wav, .wma, and .mp3, .avi, .mp2, DivX (separate codec), and more. The program can now burn over 1,000 songs or 5 movies on just one DVD ! It features high-speed ripping and even allows for mixing of audio tracks and CDs.

... exactly what users want !

Virtuosa has been refined for over 7 years with the constant feedback of its community. The company has conducted several surveys to collect user feedback and to define the next developments of the product. “The global constellation of partners we have teamed up with, the numerous awards and the constant encouraging feedback we receive are at the same time fascinating, a great honor and a powerful stimulus for us to always go beyond.”, says Biondi Morra

Virtuosa runs on Windows 95, 98, ME, XP, NT 4.0 and 2000. It requires 64MB of RAM and 20 MB of free hard disk space. Both a fully-functional 30-day free trial as well as the unlimited Gold version can be downloaded from www.virtuosa.com and on all major downloading sites. Evaluation copy available.
